-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

### ***Drawings***

The drawings are objected to because "Fig. 12:" should be amended to -- Fig. 121 --. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

The disclosure is objected to because of the following informalities:

page 45, line 15, the word "figures" should be amended to the word -- Figures --.

page 49, line 11, the number "65A" should be amended to the number -- 65a --.

page 58, line 21, the number "22a" should be amended to the number -- 22A --.

page 78, line 22, the words -- (not shown) -- should be inserted after the letter "B".

page 91, line 12, the word "role" should be amended to the word -- roll --.

page 91, line 14, reference character "295" has been used to designate both the feed material and a material form (from page 91, line 12). It is unclear what reference character "295" designates.

page 93, line 11, the word "Figure" should be amended to the word -- Figures --.

Appropriate correction is required.

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Claim Rejections - 35 USC § 112***

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1

lines 1-2, there are no positive method steps recited in the claim. It is suggested that the word "electroplated" (from claim 1, line 2) be amended to the word -- electroplating --, and this word should be inserted after the word "comprising" in claim 1, line 1.

line 1, the preamble of the claim does recite what the present invention is, i.e., -- a method --.

line 2, the preamble of the claim recites "electroplating of an article". However, the body of the claim does not recite a method step of electroplating the article.

line 2, is it unclear what is the relationship between "a surface intended to be electroplated" and the article recited in claim 1, line 1.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that

form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by **van Dijk et al.** (US Patent No. 5,338,413).

van Dijk teaches a continuous electroplating of an article (col. 6, lines 35-54; and Fig. 1), the improvement comprising an electrically conductive resin (= an electrically conductive thermoplastic polymer) [col. 2, line 33 to col. 3, line 47] to form a surface intended to be electroplated (col. 6, Example 1).

Since van Dijk teaches all of the limitations recited in the instant claims, the reference is deemed to be anticipatory.
